Pair Fire Mid-Range Finale

Saturday December 27, 2025

Powered by

Annealing Made Perfect and F Class Products

This match marks the exciting conclusion of the 2025 high power shooting season. Some lucky participants will go home with either an Annealing Made Perfect Mark II DB annealer or F Class Products AUTOTAP, along with other prizes from some of our generous sponsors shown below. Prizes will be awarded based on participation with increased odds for the division winners. Competitors must be present to win.

The match somewhat mimics the international pair fire shooting format where competitors shoot within a 45 second time allowance per shot, alternating their shots, so that each shooter has similar shooting conditions contributing to a fairer competition. Registration is open to F-Open, FTR, Any-Any, Service, and NRA non-compliant for shooters with acceptable non-compliant rifles. Shoot prone in the rain or shine from the covered 500 yard firing line at ShotMarker electronic targets allowing you to view your shots from your own smartphone or tablet. Arrive at 7:00 AM for squadding. Award and prize ceremony at the conclusion of the match.

Bring zeroed rifle, empty chamber indicator, eyes, ears, water, snacks, ammo, front and rear rests as applicable, mat, spotting scope, smartphone or tablet (limited loaner tablets available), first aid kit, gun tools, and a winning attitude.

Neither RSSC nor NRA membership are not required, but encouraged. Chronographs are allowed. Suppressors for non-NRA compliant rifles, are allowed. Wind meters, ballistic calculators, and muzzle brakes are prohibited. Match format: 5+15, 2+15, 2+15, though only 54 rounds, bring more, just in case. No shot delay for a fast pace. Matches 2 and 3 have convertible sighters.

Registration is REQUIRED at PractiScore.com

Sign in (account is free), click "Matches" near top left, about half page down in the search field enter "Pair Fire Mid-Range Finale". \$55.00. Juniors free.
